

## II. SPECIAL TABLES

### A. 2004 COMPENSATION OF CLERGY APPOINTED TO CHARGES

*Notes:*

The "compensation" figure shown includes the base salary and all other cash allowances (utilities, tax-deferred annuity payments, assistance with self-employment tax, dependents' health-care premiums, accountable reimbursement plans, Equitable Compensation Fund supplements, congregational development funds, etc.) other than (a) travel expense reimbursements or allowances and (b) housing allowances paid in lieu of parsonages, which are shown in the column so labeled. Please note, however, that the deacons in full connection (FD) and the probationary members preparing to be ordained deacons in full connection (PD) are not provided parsonages and that their "compensation" figures may include amounts designated as housing allowances for tax purposes.

In the Western North Carolina Conference, reimbursements for parish-related travel expenses and housing allowances paid in lieu of parsonages are regarded as items of local-church operating expense and not as clergy compensation and are not included in the compensation figures taken into account by the Cabinet in the making of clergy appointments.

The figures shown here have been certified as accurate by the district superintendents.
